OBJECTIVE

Hard-working (strong trait) retail associate, skilled in frontend development tech and inventory management (2 key skills). Seeking to increase sales and customer loyalty (what you hope to do for the company) as a Sales Associate at Chiller Outfitters (the position and company name).

HOBBIES

I played handball competitively in highschool as a teenager and, after moving to university, i became obsessed in bandminton and swimming (an eternity in playing & swimming) Currently obsessed with ultimate frisbee

CERTIFICATION

CCNAv7: Switching, Routing, and Wireless Essentials

ccna

August
2021

Configure VLANs and Inter-VLAN routing applying security best practices. Troubleshoot inter-VLAN routing on Layer 3 devices. Configure redundancy on a switched network using STP and EtherChannel. Troubleshoot EtherChannel on switched networks. Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols. Configure dynamic address allocation in IPv6 networks. Configure WLANs using a WLC and L2 security best practices. Configure switch security to mitigate LAN attacks. Configure IPv4 and IPv6 static routing on routers.

Introduction to IoT

ccna

July 2021

Explain how IoT and Digital Transformation are positively impacting businesses and governments. Explain the importance of software and data for digital businesses and society. Explain the benefits of automation and artificial intelligence for digital transformation. Explain the concepts of Intent Based Networking. Explain the need for enhanced security in the digitized world.

CCNAv7: Introduction to Networks

ccna

May 2021

Configure switches and end devices to provide access to local and remote network resources. Explain how physical and data link layer protocols support the operation of Ethernet in a switched network. Configure routers to enable end-to-end connectivity between remote devices. Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices Explain how the upper layers of the OSI model support network applications. Configure a small network with security best practices. Troubleshoot connectivity in a small network.

SKILLS

front-end developer

intermediate, using html css and javascript able to make decisions and solve problems You are able to empathize with customers in a genuine way that lets them know you care about their issues You're a team player that can follow and lead as situations dictate Requirements: 2-5 years of experience working with customers in a technical role Excellent written and verbal communication Experience with JIRA, Zendesk, Salesforce or other support tools
